Introduction

Capgemini supports your personal growth and empowers you to #MAKEITREAL.

You are engaging in continuous development activities and conversations with your People Manager and peers, aimed at providing you guidance and opportunities for you to progress.

This process is designed to capture all elements (priorities, feedback, development activities, aspirations and challenges) that you have been exchanging with your People Manager, in one simple form. At the end of this process, you and your People Manager can identify whether there should be any changes to priorities.

If you have any questions or concerns relating to this process, you can contact your People Manager, your HR Business Partner or easily obtain more information on the People Experience intranet.

Priorities-2025

This section is for evaluating the individual priorities that you have agreed with your People Manager at the beginning of the year and that you kept up-to-date through regular Check-Ins throughout the year.

These priorities include achievements and contributions from your assignments. You are strongly encouraged to evidence progress and achievements against your development priorities. The balance between performing in business and constantly progressing is at the heart of what defines success at Capgemini.

Assignment

Overall Comments on Priorities

Assignment:

Followed rules and adhere 100% company policies and guidelines. In Training I learn SQL, PL/SQL, Oracle EBS, Oracle Reports and Basics of UNIX commands.

After That in my First project that was Orange Business International, learn about Oracle Fusion, BI Publisher Report, OTBI Reports, Jobs Creation under the guidance of Supervisor/Mentor and team members and did hands on practice there obtained practical knowledge.

Previously, I suffered to express thoughts and Ideas. After taking guidance from Mentors and Team, I develop a good and strong verbal communication. As a fresher, I work in a team under the guidance of mentor and keep myself ready to learn and also participate in discussions and complete tasks what they assign. Obviously, I made mistakes and try to learn from them and Improving skills to complete some certifications.

Employee Comments

Development Priority:

The ACLH Target that is 108 and my ACLH Target for 2025 is more than 108
Successfully completed all Certifications(L1), Trainings, OCEAN Certifications and mandatory learnings and attached certifications in attachments.

Business Priority:

Followed all compliance (100%) throughout year like BTO guidelines, Time-in-office and fill timesheets and leaves on time.

In which project I work, I face zero client escalation.

In Project completed assignments and tasks on time whatever they assign to me, as a fresher, I worked under supervisor and understanding things what he/she said to me and eager to learn more in each project. Also completed GEN AI certification and other Oracle Certifications also through year that was assigned to me.

Gagan proactively supported the FCCS environment by effectively managing daily data loads, system health checks, and scheduled jobs. He ensured high data reliability, resolved issues in a timely manner, and demonstrated strong learning agility in EPM and FCCS tools. His contributions played a key role in maintaining system stability and enabling smooth and timely financial closes.

Final Reflections on the Year - Skills Maturity

Given your review of skills maturity, please answer the following two questions:

[Click here](#) for Assessment scale

What level of Overall Skills Maturity (OSM) is being demonstrated? Building

What level of leadership skills maturity is being demonstrated? Building

We recommend that the Capgemini Leadership Vision should be considered as guidance to all People Managers when they assess the Leadership Skills Maturity of their Team Members. While some Team Members might be in roles where they are expected to lead others, some other Team Members might only be expected to lead themselves. Please refer to the Capgemini Leadership Vision as a guide for assessing Leadership Skills Maturity of your Team Members.

Overall Comments on Skills Maturity

Employee Comment: What is the level of contribution this year?

I worked on two different projects this year:

1. Orange Business:

In this project almost 5 months spends there. 3 months as shadow and 2 months billable. Here, I build up my skills and knowledge efficiently under the guidance of mentor and team members. Also learned here technical and behavioural knowledge. In technical, learned Oracle fusion BI Publisher and OTBI Reports and Conversion of reports from NFPS (on premise) to fusion. In behavioural, build good communication and teamwork. Also completed tasks on time what they assign.

2. SpartanNash:

I join this project in end of July and almost there 3 months in shadow and after that from November-2025 I became billable.

During Shadow period, the team gave me KT on FRS Reports and EPM and FCCS tools. I learn these skills quickly and try to implement and contribute to Project.

In FRS Reports, contributed to edit (if required) and testing and In FCCS tool, used to check daily health check of the data loads that was loaded from ERP to EPM.

Employee Comment: What level of leadership skills maturity is being demonstrated?

I delivered good contributions this year by completing projects tasks on time, improving team efficiency, building good teamwork, and supporting cross-functional collaboration. Overall, my contribution level has been consistent and aligned with team goals.

People Manager Comments
